New Subversive Group Is Working For Restriction of Existing Labor Laws, Enactment of Repressive Labor Legislation, and Destruction of State Labor Departments

By A. F. of L. Weekly News Service.
The Executive Council of the American Federation of Labor, in session here following the annual convention, has adopted a resolution to create a new subversive group to work for the restriction of existing labor laws, the enactment of repressive labor legislation, and the destruction of state labor departments.

The matter was presented to the convention by the A. F. of L. Executive Council in their report.

Although the increased strength achieved by the growth of membership and collective bargaining is a considerable achievement, the Council warned that the restrictive activities of anti-labor groups necessitate united action by labor for the protection of rights already secured and the necessary strengthening of these rights.

The Executive Council report, which the convention adopted, said: "The increase in union strength during the past year has been accompanied by increased hostility to the labor movement. While industrial associations are endeavoring to obstruct the initiative in organizing and are turning their attention toward restricting collective rights through legislative means, the result of this is to create a new subversive labor legislation and to cause the dismemberment of state departments of labor, in order to cause the United States Department of Labor to be the failure of Congress to enact needed labor legislation."

"We need to plan for the strengthening of our position during the coming year and the maintenance of the gains made in the past year. United action by the American Federation of Labor is needed to bring about a change in the present situation and in the development of collective bargaining rights."

The resolution, which was adopted by a vote of 100 to 10, calls for the creation of a new subversive labor group to work for the restriction of existing labor laws, the enactment of repressive labor legislation, and the destruction of state labor departments.
